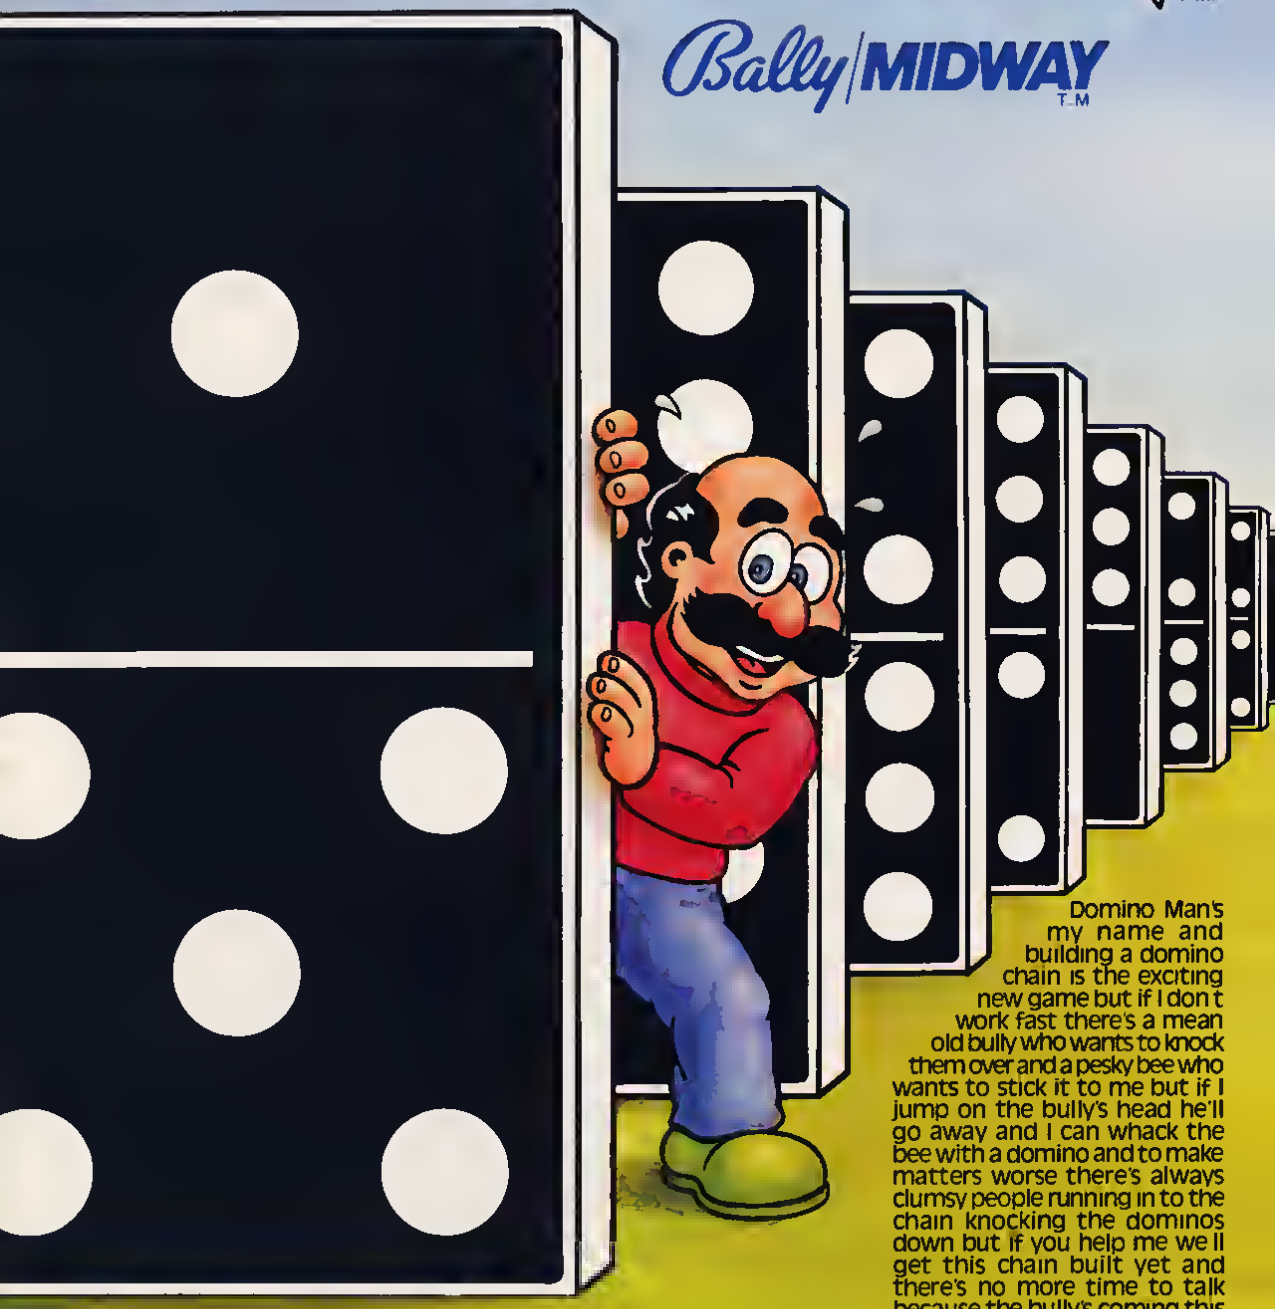
DOMINO MAN™

Bally/MIDWAY™



Domino Man's my name and building a domino chain is the exciting new game but if I don't work fast there's a mean old bully who wants to knock them over and a pesky bee who wants to stick it to me but if I jump on the bully's head he'll go away and I can whack the bee with a domino and to make matters worse there's always clumsy people running in to the chain knocking the dominos down but if you help me we'll get this chain built yet and there's no more time to talk because the bully's coming this way so I have to gooooooo...

Trouble in the Parking Lot

Help Domino Man weave his trail of dominos through the congested shopping center parking lot. Protect the domino chain from the Bumbling Bag Lady and the Reckless Little Boy and his hot-rod shopping cart!

Hint 1: Bumping into characters causes them to reverse direction!

Grief at the Golf Course
How long will the chain remain intact? Only as long as Domino Man can avoid the Slicing Golfer, the Duffer in the Souped-up Golf Cart and the Burrowing Golpher. Guide Domino Man from green to green to complete the trail of fragile dominos!
Hint 2: Push the intruders into the Bully so they both get caught!

Calamity on the Construction Site
Steer Domino Man clear of the incompetent construction crew: the Lumbering Laboror pushing a wheelbarrow, the Jack-Hammer Man and the Careless Carpenter with his ladder!
Hint 3: Stop a falling chain by racing ahead and removing a domino!
